

TruChecks

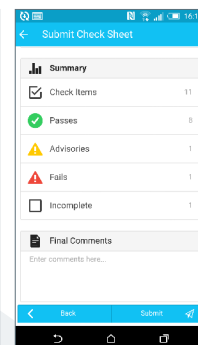

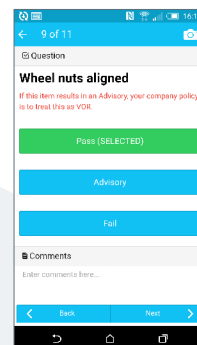

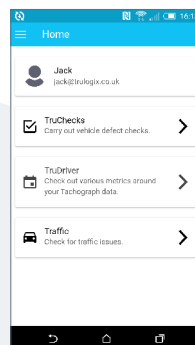

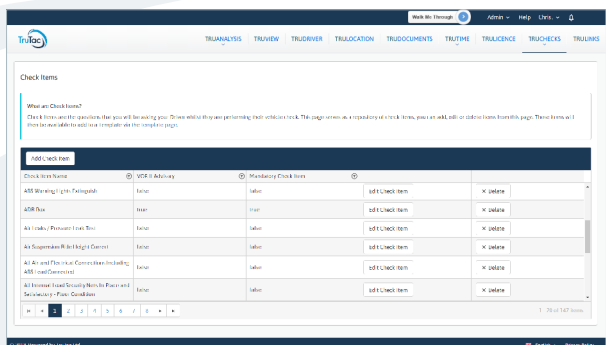

TruChecks is a mobile system for drivers to complete daily walk around vehicle inspections and defect reporting. TruChecks captures all of the information required by DVSA inspectors and provides type specific and configurable check lists for all vehicle types and trailers.

The app is easy to use and intuitive, enabling users to get instant feedback and providing a full, time-stamped audit trail. Transport managers can minimise vehicle downtime with instant defect notifications, fast remedial action and efficient service control.

- ✓ Instantly report defects
- ✓ View historical checks
- ✓ Compliance audit trail

TruChecks data is available via email alerts and web-based reporting system, giving visibility and accurate vehicle defect management. Once a check form has been logged, it is automatically sent to the office to notify of problems. Forms are easily recalled for inspections and workshop maintenance. Managers can configure checklists along with the order of completion and expected time frame. Time stamped reports are immediately available and are stored electronically.

Features

- Time stamped for accuracy
- Accurate, reliable and secure
- Configurable check lists for all vehicles and trailers
- Easy recall for spot checks and range of reports
- Use camera to take pictures and send to office

Benefits

- Minimise vehicle downtime
- Reduce paper based admin
- Real-time vehicle visibility
- Enhances driver debrief and performance reviews
- Full training, online help and helpdesk support
