

TruTac Hall of Compliance

One Voice, One solution
Our Customers are Talking...

We are talking... Complete Compliance Control!

“TruAnalysis gives us much greater visibility. From capturing missing miles and easy driver debriefing by way of electronic signatures, to secure online document storage, it all adds up to paper elimination, less wasted time chasing drivers and of course, complete compliance control.”

Richard Toner. *Commercial Director, Elddis Transport.*

We are talking... 100% Compliance!

“ Our vehicle fleet is relied upon to deliver on-time while remaining efficient, safe and 100% compliant. TruTac’s unique software systems work in unison to enable close management and control of our transport assets and personnel. The TruTac package allows us to keep tabs on each one of our 20 drivers and vehicles. We can cover hours, analyse tacho information, debrief drivers and monitor infringements at the click of a button. That saves time, keeps us legal and above all, keeps our delivery fleet on the move! ”

Lee Parker. *Transport Manager, Arden Wood Shavings.*

We are talking...

Instant Driver Debriefing!

“ I can check on vehicle utilisation via TruControl and see the drivers with the best and worst infringement records at our various sites. Plus, I can look up any driver who’s just completed their route and instantly download data to check for infringements - which means we can debrief drivers straight away.”

Peter Cox. *Group Transport Manager, CLEAN.*

We are talking... Reduced Driver Infringements!

“ With TruAnalysis, not only do we see a reduction in driver infringements, but also a noticeable decrease in administration - factors which give us a more efficient and compliant operation. ”

Rowan Harris. *Transport Manager, CMG.*

We are talking... Big Time Savings!

“ All our tachographs used to be sent away to be analysed and it was very time-consuming – in fact we got the reports back about a week later. Now, using TruControl from TruTac, our drivers can download their tachograph card via the telematics system in the truck and it comes through to me. I then enter it into the system and have the report within minutes. That’s fast.”

Will Porter. *Transport Manager, Cranleigh Freight Services.*

We are talking...

Working Time Directive Compliance!

“ Working time directive compliance is a crucial part of our procedure – especially during bank holidays or when workloads ramp up. This is when TruControl comes into its own: I can instantly download driver information and check each driver’s hours. Plus, I can see any infringements and retrieve payroll information too. Fast, accurate, compliant – we couldn’t do without it! ”

Kirstie Stuart. *HR Manager, Tooles Transport..*

We are talking... Concrete Vehicle Compliance!

“ TruTac quickly installed the new vehicle hardware – which took less time to fit than a radio – and very soon, using a range of software modules:- TruControl; TruView; TruChecks; TruDriver and TruLocation we were able to remotely download all the information needed to fall in line with compliance and the law.”

Matt Burman. *Director, Burman Plant*

We are talking... DVSA Checks with Confidence!

“ Using TruTac software we monitor all our vehicle performance data live. It’s virtually instant and the accurate reporting system means we can satisfy any DVSA checks at a moment’s notice.”

Jon Sparks. *Director, Sparks Transport.*

We are talking... Cost-Cutting Compliance!

“ In addition to the important compliance benefits, we have seen a cost reduction of around 13% through a combination of direct costs and time saving.”

Sarah Burrows. *Managing Director, Cherry Load.*

We are talking...

Vehicle & Driver Compliance Control!

“ We switched to TruTac because their software is intuitive and more ‘user-friendly’. Now, using the ‘TruControl’ portal, which combines TruAnalysis, TruView, TruDriver, TruDocument and TruLicence, we control virtually all aspects of our vehicle and driver compliance.”

Richard Tallis. *Group Logistics Manager, Barrett Steel.*

We are talking... DVSA Compliance Confidence!

“With TruTac’s full and clear reporting system, our customers can easily satisfy DVSA Compliance regulations. On the road or back at base, the real-time information is easily accessible and simple to use.”

Allison Kemp. *Managing Director, A.I.M Commercial Services Ltd.*

We are talking...

Quick and Easy Driver Scheduling!

“ Using TruTac’s TruAnalysis software, we can see any driver’s hours on screen to check if there is time available to accommodate a new assignment. This is perfect for route planning, WTD considerations and of course, excellent customer service!”

Howard Owen. *Group Transport Manager, Gwynedd Shipping.*

We are talking... Complete Compliance Control!

“ This is all about three leaders in their field working in sync to achieve the optimum in compliance solutions: fast, efficient, cost-effective, legal. Volvo’s Dynafleet management system and TruTac’s tachograph analysis software – the perfect combination for complete compliance control! ”

Richard Brown. *Transport Manager, Fly By Nite.*
