

TruTac Hall of Compliance

One Voice, One Solution
Our Customers are Talking...

Tru Compliance with TruControl:

TruAnalysis PSV is a fully web-based, completely automated, digital and analogue tachograph analysis reporting system specifically for PSV operators.

TruView Managers' dashboard for key performance data with easy-to-understand graphics and configurable apps.

TruDriver Driver portal, to educate and inform drivers on tachograph records, infringements, compliance and working time.

TruDocument Online document storage, search and management facility for all paperwork relating to drivers, vehicles and compliance.

TruChecks Daily driver walkaround checking App and back office compliance reporting system.

TruTime Employee clocking via tachograph cards or smart cards, providing clocked versus tacho data.

TruLicence Driving licence validation and verification checking system.

TruLocation Tracking and remote tachograph downloading with geo-location, points of interest, harsh braking and excess speeding.

TruLinks Suite of API links for developers to integrate key data between systems.

TruFleet Operator Licence Management, including vehicle maintenance planning, safety management, vehicle and trailer number authentication and all vehicle document control. ER-approved.

We are talking... Cost Reduction!

“The biggest time saver for us is when it comes to monitoring the working time directive. The TruTac system records everything for us and displays it in the way we want - I can see it live and who's coming near the driving time limits. With 43 drivers' cards to process, the time saving on administration is easily 15 hours a week. I am very happy with TruControl PSV - it's fantastic. I definitely wouldn't go back to our old system!”

Andy Wing. *Transport Manager, Golden Boy Coaches.*

We are talking... Return on Investment!

“ TruTac’s TruControl PSV for tachograph analysis and TruTime for clocking, make managing drivers’ hours and time sheets easy. The software is fully automated, simple to use and because it’s web-based we can run it on smart phones and tablets when we’re out of the office. Also, it’s designed specifically for the coach sector and works with EU and domestic drivers’ hours, WTD and both digital and analogue tachographs. All in all, the systems are proving to be a sound investment in our business.”

Richard Matthews. *Manager, Princess Coaches.*

All Transport Operators trutac.co.uk

TruTac is ER-accredited

We are talking... Accurate Drivers' Hours!

“ We switched to TruTac’s TruControl PSV during 2010 - having had issues with other systems in the way they were interpreting the EC Drivers’ Hours rules – specifically for drivers on tours overseas. Our compliance solicitor recommended TruTac as the better system on the market because it gives truer results on first sift through. ”

Ian Lockett. *Director, Lucketts Travel.*

We are talking... Compliance Control!

“With over 150 vehicles, it’s essential for us to keep tight control on driver performance, WTD and all compliance. We use TruTac’s TruControl PSV to provide fast, accurate and specific data. From the dashboard, it takes just 3 clicks to access each depot’s driver files - where all infringements are listed and ready to print. It’s a great system. Easy to use and guaranteed to provide true compliance control.”

Adrian de Courcey. *Chief Executive, Travel de Courcey.*

We are talking...

Admin' Reduction and Time Saving!

“We’ve saved two days’ work for one person using CPT Tacho Analysis, so it’s a big improvement on our previous, manual-entry system. Plus, using TruChecks, we save more time when entering defects and drivers’ walk-round checks.”

Richard Telling, *Managing Director, Falcon Coaches.*

We are talking...

Maximum Compliance, Minimum Downtime!

“ CPT Tacho Analysis and CPT Daily Checks from TruTac provide us with all the compliance data we need, including remote tacho downloading. Drivers carry out all checks on their mobile app, then submit instant results, including photos, for immediate rectification. Each driver has full visibility of their working-time, infringements and tachograph data. Paperless, tamperproof and secure. Cuts time and keeps the wheels moving! ”

Paul Bull. *Operations Director, Alfa Travel.*

We are talking...

50% Fewer Driver Infringements!

“ We use CPT Tacho Analysis, CPT Daily Checks and TruLicence. TruTac’s remote downloading solution delivers all vehicle and driver information direct from the tachograph. In just 3 months we have seen a 50% reduction in driver infringements and an overall increase in compliance control.”

Bryan Maddern. *Transport Manager, Daish’s Holidays.*

We are talking... Compliance on a Higher Level!

“TruTac provide us with CPT TachoAnalysis, TruTime and TruLinks API for digital and analogue tachograph analysis. This includes driver monitoring and debriefing; infringements and working time; online compliance reporting and document storage. Our compliance bar is set to the highest level and TruTac software keeps it there!”

Richard Grey, *Managing Director, Greys of Ely*

We are talking...

Infringement Reductions and ER Status!

“ The all-in-one software system from TruTac and the CPT has enabled us to slash driver infringements by over 50%. Tight control across the fleet and instant access to concise compliance data made it possible for us to achieve ER status.”

Paul Bull. *Operations Director, Alfa Coaches.*

We are talking...

Time-Saving & Compliance Control!

“ TruTac’s CPT Tacho Analysis, CPT Daily Checks, CPT Licence Checks and TruTime gives us instant access to clear compliance data. This is key to maintaining our Earned Recognition status - one of the benefits of which, is that we are very rarely pulled over by the DVSA. So, time is saved on the road as well as in the office.”

Matt Barnes. *Director, Barnes Coaches.*
