

TruTac Hall of Compliance

One Voice, One solution
Our Customers are Talking...

We are talking... Cost Reduction!

“The biggest time saver for us is when it comes to monitoring the working time directive. The TruTac system records everything for us and displays it in the way we want - I can see it live and who's coming near the driving time limits. With 43 drivers' cards to process, the time saving on administration is easily 15 hours a week. I am very happy with TruControl PSV - it's fantastic. I definitely wouldn't go back to our old system!”

Andy Wing. *Transport Manager, Golden Boy Coaches.*

We are talking... Return on Investment!

“TruTac’s TruControl PSV for tachograph analysis and TruTime for clocking, make managing drivers’ hours and time sheets easy. The software is fully automated, simple to use and because it’s web-based we can run it on smart phones and tablets when we’re out of the office. Also, it’s designed specifically for the coach sector and works with EU and domestic drivers’ hours, WTD and both digital and analogue tachographs. All in all, the systems are proving to be a sound investment in our business.”

Richard Matthews. *Manager, Princess Coaches.*

We are talking... Accurate Drivers' Hours!

“ We switched to TruTac’s TruControl PSV during 2010 - having had issues with other systems in the way they were interpreting the EC Drivers’ Hours rules – specifically for drivers on tours overseas. Our compliance solicitor recommended TruTac as the better system on the market because it gives truer results on first sift through. ”

Ian Luckett. *Director, Lucketts Travel.*

We are talking... Compliance Control!

“With over 150 vehicles, it’s essential for us to keep tight control on driver performance, WTD and all compliance. We use TruTac’s TruControl PSV to provide fast, accurate and specific data. From the dashboard, it takes just 3 clicks to access each depot’s driver files - where all infringements are listed and ready to print. It’s a great system. Easy to use and guaranteed to provide true compliance control.”

Adrian de Courcey. *Chief Executive, Travel de Courcey.*

We are talking...

Admin' Reduction and Time Saving!

“ We’ve saved two days’ work for one person using CPT Tacho Analysis, so it’s a big improvement on our previous, manual-entry system. Plus, using TruChecks, we save more time when entering defects and drivers’ walk-round checks.”

Richard Telling. *Managing Director, Falcon Coaches.*

We are talking...

Maximum Compliance, Minimum Downtime!

“ CPT Tacho Analysis and CPT Daily Checks from TruTac provide us with all the compliance data we need, including remote tacho downloading. Drivers carry out all checks on their mobile app, then submit instant results, including photos, for immediate rectification. Each driver has full visibility of their working-time, infringements and tachograph data. Paperless, tamperproof and secure. Cuts time and keeps the wheels moving! ”

Paul Bull. *Operations Director, Alfa Travel.*

Software and Compliance for All Transport Operators

trutac.co.uk

We are talking...

50% Fewer Driver Infringements!

“ We use CPT Tacho Analysis, CPT Daily Checks and TruLicence. TruTac’s remote downloading solution delivers all vehicle and driver information direct from the tachograph. In just 3 months we have seen a 50% reduction in driver infringements and an overall increase in compliance control. ”

Bryan Maddern. *Transport Manager, Daish's Holidays.*

We are talking...

Compliance on a Higher Level!

“ TruTac provide us with CPT TachoAnalysis, TruTime and TruLinks API for digital and analogue tachograph analysis. This includes driver monitoring and debriefing; infringements and working time; online compliance reporting and document storage. Our compliance bar is set to the highest level and TruTac software keeps it there! ”

Richard Grey. *Managing Director, Greys of Ely*

We are talking...

Instant Driver Monitoring and Control!

“With so many drivers, we need a software system which enables instant monitoring and control. TruTac gives us this and more: automatic, real-time information regarding all aspects of the coach operation. Perfect for improving fleet performance and maintaining compliance control.”

Stephen Tapper. *Training and Compliance Manager, Edwards Coaches.*

We are talking... CPT Tacho Analysis!

“ One of the main reasons Stanley Travel use TruTac’s CPT Tacho Analysis is because the system is approved and compatible with DVLA’s Earned Recognition scheme. ”

Andrew Scott. *Director, Stanley Travel.*

We are talking... DVSA Compliance Confidence!

“With TruTac’s full and clear reporting system, our customers can easily satisfy DVSA Compliance regulations. On the road or back at base, the real-time information is easily accessible and simple to use.”

Allison Kemp. *Managing Director, A.I.M Commercial Services Ltd.*

We are talking... Crystal-Clear Compliance!

“ The CPT Tacho Analysis system powered by TruTac, is one of the best investments we’ve made. One glance at the screen tells all. It was easy to install, it’s easy to use, secure and all the information is crystal-clear.”

Anthony Winson. *Operations Director, Paul S. Winson Coaches.*
