

## TruTime

**TruTime - web-based clocking system for analysing and managing working time. Full integration between clocking and tachograph data for complete duty information.**

Accurately record attendance and holidays using digital tachograph driver cards, smart cards or the app. Provide clocked hours versus tachograph data for payroll.

TruTime used alongside TruAnalysis records all lead in and lead out for complete working time directive (WTD) compliance.

- Web-based clocking system for WTD
- Capture manual duties
- Manage holidays, clocking and availability via app working time directive solution.

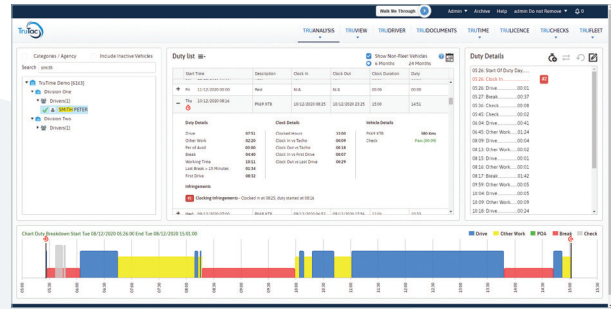

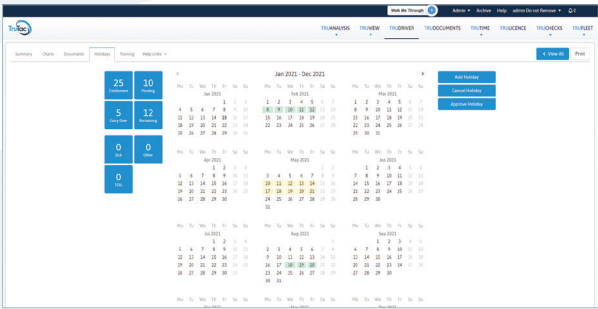

✓ Save time & money

✓ Reduce labour costs

✓ Increase payroll accuracy

### Manage Clock In / Out

Instantly see who is clocked in / out and conduct a roll call. Manage and amend clockings at the touch of the button, with full audit information if a clocking is altered.

### Manage Holidays & Absence

Manage holiday allowances, carry over, Bank Holidays and remaining holidays all in one place. Holiday approval emails auto sent to managers for requests.

### Feature Rich App

App includes 'No Show' notification button to provide warning alert if not coming into work. Request holidays from the app and see remaining holiday entitlement.

### Record Skills & CPC

Overview of training history and auto add training course dates to the calendar. Record driver CPC training and status (with DQC expiry via TruLicence if purchased).

FEATURES

- Integrates with TruAnalysis for full control
